Parent/Guardian's Name: _____

Your child will automatically be enrolled in Explorers between the time your child finishes class and 1 pm. You will be billed **for the amount of time used between class and Enrichment at \$8.00/hour.** If you need additional Explorers after enrichment class ends, please fill out the Explorers Registration Form. Explorers and Enrichment fees are a set charge and will not be reduced because of missed days, illness, or vacations. The full cost of your Enrichment session will be included on your invoice the month in which the session begins*.

All Enrichment classes are available to children who are 3 years or older that can sustain 2 hours of focused engagement in the afternoon.

Please enroll my child in the following Enrichment classes:

Enrichment Programs Spring 2019

Making Musical Instruments

The class will focus on the exploration of all the musical instruments we have at school: Drums, percussion, guitar, ukulele, autoharp, accordion, horns, and much more. Each week will also feature an instrument construction project and open-ended creation station. We'll also listen to some great music while we work. We'll go outside on nice days and end class each week with a great big jam session using our new instruments. Join us for all the fun!

Spanish Exploration

Spanish Exploration provides an opportunity for students to build a foundation of basic Spanish language comprehension and speaking and to build an understanding of cultural diversity within a curriculum that explores various Spanish-speaking cultures.

Team Sports

Learn to play team sports like soccer, basketball, kickball, badminton, and more. Being part of a team can teach you many valuable skills like how to take turns, growing as a leader, being a good sport and team player, how to deal with setbacks and losses, managing conflict, and working hard towards a goal. And, of course, have lots of fun!

Cooking

Sometimes savory, sometimes sweet...we practice making food, trying new foods, following recipes, enjoying food politely with each other, and building our relationship with food.

Arts Exploration

Every week we will be exploring a different medium of art. Different ways to paint, different tools to paint with, using recycled and reuse materials, implementing Remida, and other mixed media art.

Drama Enrichment

Drama Enrichment provides children with the chance to explore their everyday dramatic-play universe in an exciting way; by creating original characters and original stories for the characters to live in. Children will also explore what makes compelling stories compelling (and how to do it themselves), through literacy-building activities and games. Drama students will perform their work at the end of the term with families!
